VOREXA

PRIMER SYSTEMS

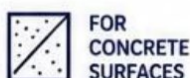

CONSTRUCTION PRIMER SYSTEMS

VOREXA Primer Systems provide strong adhesion to surfaces, easy application, and enhance the protection and performance of building structures.

VOREXA BRUT CONCRETE PRIMER

Increases adhesion on concrete surfaces, blocks dust, improves surface strength and protects the applied coating.

FOR
CONCRETE
SURFACES

HIGH
ADHESION

Provides an ideal foundation for coatings on porous concrete surfaces, prevents dusting and increases surface strength.

VOREXA READY-MIX PLASTER PRIMER

Creates a homogeneous surface on plaster surfaces, ensures better adhesion for the topcoat and provides a more even and durable finish.

FOR PLASTER
SURFACES

LEVELS
ABSORPTION

Balances absorbency on plaster surfaces, reduces paint consumption and increases durability.

VOREXA UNIVERSAL PRIMER

Provides strong adhesion on interior and exterior surfaces, offers excellent priming before paint and coating applications.

INTERIOR &
EXTERIOR USE

STRONG
BONDING

Shows high performance on different surfaces. Ideal for multi-purpose use.

VOREXA INSULATION PRIMER

Special formulation that provides water and moisture insulation, increases surface durability and prevents water absorption.

WATER &
MOISTURE
RESISTANT

HIGH
PROTECTION

Provides long-term protection on surfaces exposed to moisture and water, extends the life of coatings.

VOREXA CERAMIC TOP PRIMER

Provides excellent adhesion on ceramic, glass and smooth surfaces, preparing the surface for strong paint application.

FOR CERAMIC
SURFACES

STRONG
ADHESION

Increases adhesion on smooth and glossy surfaces, ensures safe application.

VOREXA LIQUID MEMBRANE PRIMER

Provides a flexible and durable structure, ensures waterproofing and acts as a crack bridging layer.

WATERPROOFING

ELASTIC
STRUCTURE

Suitable for moving surfaces, prevents cracks with its flexible structure and provides long-term protection.

VOREXA CONVERSION PRIMER

Ensures strong adhesion on difficult surfaces such as rust, glossy, glass and metal, and provides excellent coverage for topcoats.

SURFACE
CONVERSION

SUPERIOR
ADHESION

Increases adhesion on glossy, glass, metal and similar surfaces. Improves paint and coating durability.

VOREXA DECORATIVE COATING PRIMER

Improves surface adhesion before decorative coating applications, provides an aesthetic appearance and an excellent base for final finishes.

FOR
DECORATIVE
SURFACES

BEFORE
COATING

Supports the aesthetic appearance and durability of decorative coatings and ensures long-lasting performance.
