CLEAN SOLUTION. PERFECT RESULT.

High quality thinners and solvents that ensure excellent results in paint and coating applications with strong dissolving power and fast evaporation.

EFFECTIVE CLEANING. PERFECT RESULT.

Provides ideal solutions for thinning, cleaning and equipment maintenance. Enhances the performance and durability of paints and coatings.

THINNER PRODUCTS THINNERS & SOLVENTS

High-performance thinners and solvents developed for industrial, marine and general industrial applications. Provide excellent results by ensuring the correct viscosity, easy application and long-lasting performance.

VOREXA SYNTHETIC THINNER

- ✓ Suitable for synthetic paints
- ✓ Fast drying
- ✓ Excellent flow and application
- ✓ Provides a smooth and glossy finish

APPLICATION AREAS

- Synthetic resins
- Industrial paints
- Vehicle coatings
- Machinery parts

PACKAGING

VOREXA CELLULOSIC THINNER

- ✓ Suitable for cellulosic paints
- ✓ Provides high gloss and smooth finish
- ✓ Fast drying
- ✓ Strong dissolving power

APPLICATION AREAS

- Wood coatings
- Furniture paints
- Automotive coatings
- Marine coatings

PACKAGING

VOREXA EPOXY THINNER

- ✓ Suitable for epoxy paints
- ✓ Improves application and flow
- ✓ Slow evaporation
- ✓ High chemical resistance

APPLICATION AREAS

- Epoxy resins
- Industrial floor coatings
- Steel constructions
- Tank coatings

PACKAGING

VOREXA UNIVERSAL THINNER

- ✓ Wide range of use
- ✓ Suitable for synthetic, cellulosic and epoxy paints
- ✓ Fast drying
- ✓ Provides easy application

APPLICATION AREAS

- General industrial use
- Marine coatings
- Automotive refinishing
- Construction applications
- General industrial paints

PACKAGING

THINNER USAGE RECOMMENDATIONS

- ✓ Use the recommended thinner for your product.
- ✓ Adjust the thinning ratio according to application conditions.
- ✓ Ensure proper ventilation during application.
- ✓ Follow the product's technical data sheet and label.
- ✓ Store in a cool, dry place away from direct sunlight.

THINNER PRODUCT FEATURES

- ✓ Optimizes viscosity.
- ✓ Provides excellent flow and leveling.
- ✓ Ensures full compatibility with coating systems.
- ✓ Enables easy and smooth application.
- ✓ High dissolving power.
- ✓ Fast evaporation.
